EXAMINATION FOR THE DEGREE OF BACHELOR OF EDUCATION

EDU 110: PHYSICAL AND SPORT LITERACY

2ND SEMESTER 2024/2025

TIME: 2 HOURS

INSTRUCTIONS: Answer ALL questions in all sections in the provided answer booklet

SECTION A: CONCEPTS OF PHYSICAL LITERACY AND SPORTS LITERACY

(23 MARKS)

**EDU 110 CURTESY OF CALVINE ABABU
SCHOOL OF EDUCATION**

1. What is a key characteristic of a physically literate individual? (1mark)
 - A) Avoids engaging in physical activity
 - B) Lacks knowledge about movement patterns
 - C) Has the skills and confidence to participate in various physical activities
 - D) Focuses only on professional sports training
2. Which one of the following elements of physical literacy is an odd one out? (1 mark)
 - A) Physical competence
 - B) Engagement in Physical Activities for Life
 - C) Knowledge and Understanding
 - D) Motivation and Confidence
 - E) None of the above
3. Which of the following best reflects the essence of physical literacy? (1 Mark)
 - A) The ability to participate in a single sport proficiently
 - B) Developing movement skills and applying them throughout life
 - C) Memorizing rules and regulations of different games
4. Which of the following is an example of applying sports literacy in everyday life? (1 mark)
 - A) Memorizing past Olympic winners
 - B) Understanding and analysing sports strategies while watching a game
 - C) Learning a new sport but not engaging in any discussion about it
 - D) Mastering complex athletic techniques for professional sports
5. Which of these is an example of demonstrating physical literacy? (1mark)
 - A. Playing a sport only to win medals
 - B. Knowing the rules of swimming but never practicing it
 - C. Participating in various physical activities with confidence and skill
 - D. Watching sports games on television

6. According to pill 2010, what does sports literacy emphasise on? (1 mark)
 - A. Isolation of sports-specific motor skill development
 - B. Exclusion of socio-cultural significance in sports
 - C. Positive motivation and enthusiasm towards sports participation
 - D. Singular capacity centred on textbook technique reproduction
7. Skill acquisition that enables an individual to be able to move efficiently and effectively is considered as Learning about movement. A. True or B. False? (1 Mark)
8. Physical literacy is a skill that can only be developed during childhood True/False (1 Mark)
9. Sports literacy enables individuals to critically engage with sports as both participants and spectators. (A) True (b) False (1 mark)
10. Physical activity and sports are used as a potent medium for.....,, and (3marks)

15. Explain the role motivation plays in developing physical literacy? (2marks)

SECTION B: HUMAN MOVEMENT AND THE 3 DOMAINS OF LEARNING

(20 MARKS)

1. Which of the following learning domains is primarily concerned with movement and motor skills? (1 mark)
 - A) Cognitive Domain
 - B) Affective Domain
 - C) Psychomotor Domain
 - D) Sensory Domain
2. What is the primary role of the cognitive domain in human movement? (1 mark)
 - A) It focuses on emotions and attitudes
 - B) It involves decision-making and knowledge application
 - C) It enhances flexibility and endurance
 - D) It improves coordination and balance
3. Which of the following is an example of a psychomotor skill? (1 mark)
 - A) Solving a mathematical equation
 - B) Writing an essay
 - C) Performing gymnastics routine
 - D) Debating in a classroom discussion
4. Rationalise human movement in daily activities. (1 mark)

5. Briefly describe the affective domain and give one example of its application in sports. (2 marks)
6. List two differences between the psychomotor domain and the cognitive domain in human movement. (2 marks)
7. Explain why integrating all three domains of learning is essential in physical education. (2 marks)
8. The three domains of learning are _____, _____, and _____ (3 marks)
9. The psychomotor domain deals with developing _____ skills. (1 mark)
10. The affective domain involves an individual's _____, attitudes, and values. (1 mark)
11. The cognitive domain focuses on _____ and decision-making. (1 mark)
12. The affective domain primarily deals with muscle memory and coordination. (True/False) (1 mark)
13. The cognitive domain is key in processing knowledge and understanding movement techniques. (True/False) (1 mark)
14. Performing a dance routine is an example of a psychomotor skill. (True/False) (1 mark)
15. The psychomotor domain includes emotional responses and personal motivation. (True/False) (1 mark)

SECTION C: VALUE OF PHYSICALLY ACTIVE LIFESTYLES (13 MARKS)

1. Which one of the following is not an economic benefit of physically active lifestyles to the nation? (2 marks)
 - A. Small investments in recreation, sports and arts/culture often yield large economic returns
 - B. Increased productivity, decreased absenteeism, decreased staff turnover and reduced workplace accidents
 - C. Improved social networks, social capital, family and community connectedness
 - D. Increased economic benefits flow from participation in sport and recreation events and associated tourism
2. Which one of the following is not an environmental benefit of physically active lifestyles to the community? (2 marks)
 - A. Less air and noise pollution from vehicle emissions
 - B. Improved traffic flows and reduced congestion
 - C. Reduced demand for major road infrastructure i.e. roads, car parks

- D. Increased economic benefits flow from participation in sport and recreation events and associated tourism
3. The following diseases are lifestyle heart diseases. Which one is the odd one out? (1 mark)
(A)Hypertension (B) diabetes (C) Cholesterol levels (D) Cirrhosis
4. Flexibility activities create and maintain muscle and keep bones strong. A. True or B. False
(1 mark)
5. Which of the following is not classified as a category of Physical activity (1 mark)
A. Endurance
B. Coordination
C. Flexibility
D. Strength activities.
E. All of the above
6. Which of the following is not a recommendation of 18-64 year of ages health advisory by the Ministry of Health of 2018 (2 marks)
A. They should do at least 150 minutes of moderate intensity like aerobic activity throughout the week.
B. Anaerobic activity should be performed in bouts of at least one and half hour duration.
C. For additional health benefits, adults should increase their moderate - intensity aerobic physical activity per week, or an equivalent combination of moderate and vigorous intensity activity.
D. Muscle strengthening activities should be done involving major muscle groups on 2 or more days a week.
E. All of the above
7. Which among the following is the odd one out? (1 mark)
A. Flexibility activity
B. Strength activities

- C. Agility and coordination activities
 - D. Endurance activities
 - E. All of the above
8. Amongst the following physical activity, which one supports muscular endurance. (1 mark)
- A. Brisk walking
 - B. Vacuuming
 - C. Climbing stairs
 - D. Raking leaves
9. Is golfing considered a strength activity? True or False? (1 mark)
10. A Sedentary lifestyle integrates physical activity in one's daily routine? (1 mark)
- A. True
 - B. False

SECTION D: FUNCTIONAL USE OF PHYSICAL ACTIVITY AND SPORTS-THEMED LEARNING (20 MARKS)

1. Which of the following is NOT a functional use of physical activity and sports for empowering citizens? (1 mark)
- A) Enhancing social integration
 - B) Promoting discrimination
 - C) Improving mental well-being
 - D) Developing leadership skills
2. What is one-way teachers can integrate physical activity into academic subjects? (1 mark)
- A) Using movement-based learning activities
 - B) Separating sports and academics
 - C) Reducing PE classes
 - D) Removing sports from the curriculum
3. What is an example of sports-themed learning? (1 mark)
- A) Using sports statistics in math lessons
 - B) Keeping sports separate from academics
 - C) Avoiding physical activities in schools
 - D) Eliminating team-based projects

EDU 110 CURTESY OF CALVINE ABABU
SCHOOL OF EDUCATION

4. Physical activities and sports are effective in nurturing self-esteem, self-expression, and self-confidence, which are essential in learning processes and life in general. True/False? (1 mark)
5. Integration of physical activity and sports can help overcome social segregation and discrimination. True/False? (1 Mark)
6. Sports betting is an example of positive youth empowerment through sports. (1 Mark) *True/False*
7. Physical education in schools contributes only to physical health, not social or emotional well-being. True/False (1 Mark)
8. Sports can only be integrated into physical education and not other subjects. (True/False) (1 mark)
9. List three ways in which physical activity and sports contribute to social empowerment. (3 Marks)
10. Outline how physical activity and sports contribute to breaking stereotypes in schools. (3 Marks)
11. Mention three benefits of cross-curricular sports activities. (3 Marks)
12. Give three ways sports-themed learning can be applied in non-PE subjects. (3 Marks)

SECTION E: EDUCATIONAL ROLE OF SPORTS IN ANCIENT, TRADITIONAL, AND MODERN SOCIETIES (20 MARKS)

1. Which of the following was a primary purpose of sports in ancient societies? (1 Mark)
 - A. Recreation only

- A. Kindness
- B. Honest
- C. Honest
- D. Unfairness

7. Social character is..... (1 Mark)

8. Moral character..... (1 Mark)

9. The Arizona Sports Summit accord has the following pillars of character;
.....,,, and (5mks)

SECTION G: PHYSICAL FITNESS AND HEALTH APPRAISALS (15 MARKS)

1. Which of the following is NOT a health-related component of physical fitness? (1 mark).

- A. Muscular endurance
- B. Agility
- C. Body composition
- D. Cardiovascular endurance

2. Which component of physical fitness is measured by the sit-and-reach test? (1 mark).
 - A. Cardiovascular endurance
 - B. Muscular strength
 - C. Flexibility
 - D. Body composition
3. Rationalise the significance of Body Mass Index (BMI) measurement in Physical Fitness (2marks)
4. Distinguish between muscular strength and muscular endurance? (2marks)
5. Giving examples, explain how exercise differs from physical activity? (2marks)
6. Describe how cardiovascular fitness contribute to overall health among the elderly? (2marks)
7. All forms of exercise are considered physical activity, but not all physical activities are considered exercise. (True/False) (1 mark)
8. Health appraisal during physical fitness can help identify individuals at risk of heart disease and other medical conditions. (True/False) (1 mark)
9. The sit-and-reach test is used to measure cardiovascular endurance. (True/False) (1 mark)
10. Flexibility is a skill-related component of physical fitness. (True/False) (1 mark)
11. A sedentary lifestyle can contribute to an increased risk of chronic diseases such as diabetes and heart disease. (True/False) (1mark)

SECTION H: PHYSICAL ACTIVITY AND SPORTS AS POTENT MEDIUM FOR LEARNING, TRAINING AND COMMUNITY SERVICE (13MARKS)

1. Exercise is a subcategory of physical activity and can be defined as..... (3marks)
2. Executive functions regulate other cognitive functions (True/False)? (1mark)
3. Voluntary control of an individual's own actions, flexibility of actions as well as evaluation of actions relate to executive functions (True/False)? (1 mark)
4. Participation in training as a member of sports and exercise clubs has not been linked to good performance at school. (True/False)? (1mark)
5. Physical activity has been found to have a positive effect on children's cognitive functions. Identify four such cognitive functions. _____, _____, _____ and _____ (4marks)
6. Physically active pupils do not have higher goals for further studies after comprehensive school and physically fit pupils are absent from school frequently than their less fit peers. (True/False)? (1mark)
7. Most people who engage in regular physical activities in one way or another exhibit the following characteristics (1mark)
 - A. Positive attitude:

- B. Respect for the opponent
 - C. 'Killer instinct'
 - D. All of the above.
8. In school setting the major channel of publicity for physical activity and sports literacy is? (1mark)
- A. Teacher
 - B. students
 - C. advertisement
 - D. Intra_ Mural
