INSTRUCTIONS

Answer question ONE plus any other TWO.

1.
 - a) Two major trends in education were eminent under programmed learning.
Name and explain the two trends. (4 marks)
 - b) Give four advantages of overhead transparencies when used in teaching and learning. (4 marks)
 - c) Explain what storyboarding entails in audiovisual production. (4 marks)
 - d) Differentiate with examples between a field and a discipline. (4 marks)
 - e) What do you understand by the term 'The Third Channel'? (4 marks)
 - f) List four limitations of television and display materials as teaching resources. (4 marks)
 - g) The spoken word is the dominant element under the human interaction mode.
Using your knowledge of Dale's 'Cone of Experience' explain how this stimulus mode can be made more effective in teaching. (6 marks)
2. Educational Technology as a field of study evolved under two routes namely;
Audiovisual Education and Programmed Learning, each of which was associated with a number of conceptual frameworks.

- a) Give a concise account of the following two conceptualizations namely; trend towards mass instruction and trend towards individualization of instruction.
(12 marks)
- b) Audiovisual Education's theoretical base consisted of two assumptions.
Discuss these assumptions. (8 marks)
3. Up until the 1950s, the bulk of media research was directed towards investigating the nature of a single approach or medium rather than establishing how various approaches could be combined to create a multimedia learning environment.
- a) Using your knowledge of a single medium, discuss the problems created by films and television as far as teaching and learning were concerned.
(12 marks)
- b) With the use of examples, explain what an evaluative approach was in the use of audiovisual media. (8 marks)
4. Among the instructional resources under the visual category are the three dimensional materials.
- a) Citing specific resources, outline five instructional applications of three dimensional resources. (10 marks)
- b) Multimedia systems refer to a combination of audio and visual media that are integrated into structured, systematic presentation.
Argue the case for, or give the advantages of sound-slide combination.
(10 marks)
5. One of the reasons use of educational technology has lagged behind in African countries is due to teachers' attitudes towards it.
- a) Give an account of why teachers in Kenyan schools resist the use of educational technology. (10 marks)
- b) In advocating for the use of educational technology, Hoban, Hoban and Sizzman argued that the value of audiovisual materials is a function of their degree of realism. Explain the statement. (10 marks)
